

REMARKS

Claims 1-33 are presented for examination in the present application upon entry of the instant preliminary amendment. This continuation application is being submitted to correct inventorship in the parent application.

The specification has been amended to include the priority claim and the headings required by MPEP 608.01(a). Further, the specification has been amended to include an abstract of the disclosure. Support for this amendment can be found at least in original claim 1.

Claims 1-33 have been amended to conform to U.S. practice. Specifically, claims 1-33 have been amended to remove reference numerals, to use the transitional phrases "comprising" and "wherein" where appropriate, to remove multiple dependencies, to change "the" to "said" where appropriate, and to ensure proper antecedent basis for all claim elements. It is respectfully submitted that these amendments merely make explicit what had been implicit in the claims.

In view of the above amendments and the discussion relating thereto, it is respectfully submitted that the present application is in condition for examination. Applicants respectfully request favorable consideration and passage of this application to allowance.

If for any reason the Examiner feels that consultation with Applicants' attorney would be helpful in the advancement of the prosecution, the Examiner is invited to call the telephone number below for an interview.

Respectfully submitted,

Paul D. Greeley
